City State Zip

As a consumer of electricity in Pennsylvania, you have the right to choose the company that generates your electricity. Citizens' Electric will continue to own and maintain the local poles and wires, and deliver the electricity to you. And we will also provide electricity to you if you do not choose another supplier. Currently, there are no suppliers marketing their energy products in Citizens' territory, but we anticipate that will change in the future. To be prepared when shopping alternatives become available, we encourage you to explore the benefits of shopping and making wise buying choices, as well as to monitor the shopping market in Citizens' service territory by visiting www.PAPowerSwitch.com.

When licensed generation suppliers do begin marketing in our territory, we are required to provide them with certain customer information so they can provide you with information about their products and services. This information includes your name, billing address, service address, account number and electric usage data. **You have the right to withhold the information listed above from suppliers. Even if you previously notified us that you wish to withhold information from suppliers, you must sign and return the bottom portion of this letter. A prepaid envelope is enclosed for your convenience.** If you do, you will be responsible for providing this information to third parties from whom you wish to seek offers. Whatever you decide, please note that we will not release your telephone number and that suppliers who receive your account information are required to keep that information confidential.

If you want us to share your information with licensed generation suppliers, no action is required. **If you would like to withhold your information from approved electric generation suppliers, return the bottom portion of this letter to Citizens' Electric within 15 days.**

You also may elect to notify us to withhold this information or change your preference at any time by visiting www.citizenselectric.com or by calling (570) 524-2231.

Citizens' Electric Company

Tear off at perforation

I do NOT want my customer information released to electric generation suppliers.
