

# HONEY DO...

✓ Stay Away From Overhead Power Lines

## Honey Do List

- ~~1. Replace old incandescent light bulbs with new compact fluorescent light bulbs.~~
2. Clean the gutters, but be aware of the power lines. Always carry ladders and other long items horizontally whenever possible.
3. Trim the trees, but never near power lines - leave that to the professionals.
4. Call the local underground utility locator before planting new trees or building a deck. The service is free and can help you avoid serious injury.
5. Make sure you have the right tools and equipment for the job. Use only extension cords that are rated for outdoor use when working outside.
