In Pennsylvania, you can choose your electric generation supplier, which could save you money on your electric bills. Citizens' Electric Company encourages its customers to shop and find the best deal for their power. Our job is to safely and reliably deliver the power you buy; we will continue to deliver your electricity even if you switch to a competitive generation supplier.

To support electric choice, we maintain an "eligible customer list" for all licensed electricity suppliers. The list includes certain customer information so suppliers can provide you with information about their products and services. This list contains information including your:

- Name
- Billing Address
- Service Address
- Account Number
- Electric Usage Data

You have the right to withhold your information from suppliers. If you do, you will be responsible for providing this information to third parties from whom you wish to seek offers. Whatever you decide, please note that suppliers who receive your information are required to keep that information confidential. They may not share the information with others.

If you want us to share your information with licensed suppliers, no action is required. Please note that customer telephone numbers will never be released by Citizens' Electric Company.

If you would like to withhold your customer information from approved electric generation suppliers, return this form in the enclosed prepaid self-addressed envelope to Citizens' Electric Company within 15 days of receiving this letter. Even if you previously opted to exclude your information, you **MUST** reaffirm your preference.

You also may elect to withhold this information or change your preference at any time by calling us at 570-524-2231 or by email at billing@citizenselectric.com. Be sure to include your account number.
